**WE BELIEVE THAT QUALITY
EDUCATION IS THE KEY TO
PROGRESS AND SUCCESS.**

**WE HELP PEOPLE TO BECOME
MORE SUCCESSFUL.**

THIS IS OUR MISSION.

LINKgroup is a leading multinational company with more than 20 years of success in professional education and certification in the fields of information technology and modern business.

The company is successful locally in Serbia, as well as in Bosnia and Herzegovina, Romania, Republic of Moldova and the United States of America, and brings together students from over 120 countries worldwide via its unique eLearning distance learning system.

Unique learning method

We have developed a unique learning method, the Architecture of Knowledge, aimed at efficiently mastering new skills. This knowledge transfer method uses modern technology in an innovative manner, resulting in a learning process which is several times faster and more efficient.

Modern education

Education at our schools implies not only instruction and the distribution of knowledge, but also the ambition to help our students in all aspects, through various educational services and support.

Developing educational software and technology for an education without limits

We have created a wide range of innovative educational software solutions, carefully designed to satisfy the needs of each user and educational institution.

eduTV – the first non-profit educational TV station in the region

eduTV's primary goal is to popularize and bolster educational content in a different, interactive and interesting way. eduTV educates and motivates for learning and personal advancement, all the while being mindful of entertainment.

Revolution in learning – eLearning

Our students can, at any time and from any location, access the learning platform which enables them to follow classes, contact professors and colleagues, take tests, and much more.

Distance learning

LINKgroup created the first Serbian eLearning platform: Distance Learning System.

Thanks to the DL platform, specially designed by top experts and based on years of educational practice, research and experience, at our schools, besides the usual, traditional mode of attending classes, we also offer distance learning, i.e., learning over the Internet.

Our students can access learning materials, video lessons and other important information anytime and anywhere, which automatically leaves them more time for individual work and the exchange of opinions with the professors.

- ◆ Live Class lectures – Live stream
- ◆ Interactive instructional content
- ◆ Online tests, assignments and projects
- ◆ EduWall
- ◆ Real-time interaction with professors
- ◆ Video and audio lessons

The name of our product has become established in the Serbian education system, becoming synonymous with distance learning. As such, it has been incorporated in the higher education accreditation standards under our registered name.

Distance Learning System

LINKgroup created the first Serbian eLearning platform

24/7

The Distance Learning System platform is available 24/7

Social responsibility

We consider social responsibility to be one of the most important segments in our work.

In order to enhance education and culture, we strive to show responsibility to the society in which we operate. This is why each year we organize many charity events and projects aimed at helping young talent and entrepreneurship in Serbia.

Through LINK Learning Foundation, every year, more than 200 students receive support for education within the comprehensive LINK Educational Alliance group of schools, and a chance to change their lives.

Within the past year, LINK Learning Foundation realized:

>50 | projects
>10,000 | free online courses
>200 | free education programs

- ◆ Advancing the quality of education
- ◆ Full financial support and benefits
- ◆ Humanitarian support and investments
- ◆ Supporting the outstanding and the best
- ◆ Supporting the economy
- ◆ Education services for our society

Partnerships

LINKgroup's membership in international organizations, and the partnerships with the world's largest companies and centers, enable us to constantly follow and adopt new standards and current educational programs.

ITAcademy

School for a profitable career in IT

ITAcademy is an international school for the most sought-after IT professions.

During the one-year program the students acquire expert knowledge and prestigious certificates issued by Cambridge University, Microsoft, Google, Zend Technologies, Adobe, CompTIA, Oracle, Cisco, Autodesk, ISTQB, Linux Professional Institute, Python Institute and others.

At ITAcademy, you can choose between 6 departments. For any area you choose we have set two simple goals. The first one is for you to advance and find a well-paid job after completing the program. The second goal is to provide you with an educational experience you will fondly remember.

- ◆ Programming
- ◆ Design and Multimedia
- ◆ Administration
- ◆ IT Business
- ◆ 3D Design and CAD
- ◆ Mobile Application Development

Learning modes

Officially authorized by Cambridge Assessment International Education and three leading IT companies.

IT *Academy*™ JUNIOR

Unique IT program for children aged 7 to 14

Classes tailored to your child's interests

ITAcademy JUNIOR, a school accredited by Cambridge Assessment International Education, enables your child to gain their first IT skills using encouraging and interesting methods.

In a creative environment full of support, the students will create video games, assemble robots, design characters and objects, and achieve IT literacy.

This way, after just 6 months, the students will make a significant step towards acquiring a wide range of skills necessary for life in the 21st century.

ITAcademy JUNIOR has a clear goal – to provide the children with a foundation for advancement in programming and design, and motivate them to continue developing their IT skills. In addition to obtaining practical IT knowledge, the students will develop logical thinking skills and gain insight into other areas such as math, science, engineering and robotics.

BusinessAcademy

School for businessmen and businesswomen

Through education at BusinessAcademy you will acquire professional skills, knowledge and resources you can apply and profit from right away.

BusinessAcademy has been authorized by Cambridge Assessment International Education, HRC Institute, CMI, and other global educational and business institutions, to provide training to students according to advanced one-year programs designed for a successful career in business.

"This is the best secondary school out there. Being an athlete, it is very important to me that this school fosters extracurricular activities and follows the interests of each student."

Mateja Petrović, Savremena Gimnazija, Combined Program

STUDENTS' EXPERIENCES

"The Cambridge International Program opened the doors to education in the USA."

Una Grzunov, International School

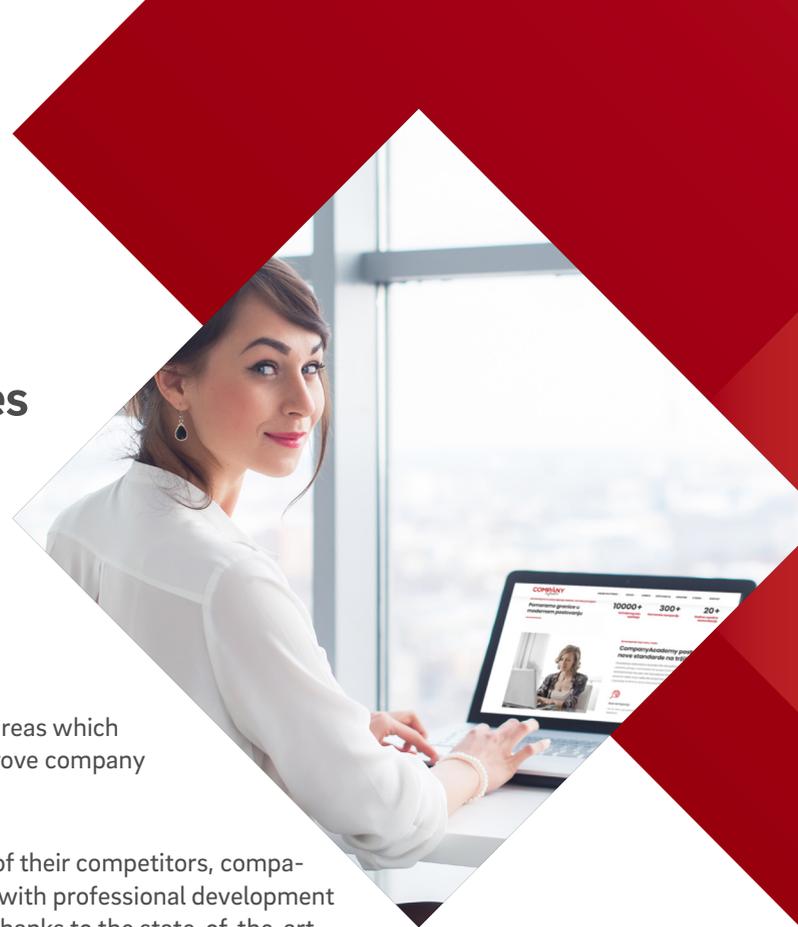

A unique edu platform with over 400 courses under your brand name

CompanyAcademy is designed for companies that want to provide their employees with interactive and fast development through a unique online distance learning platform.

This platform comprises around 400 integrated courses in the 12 most sought-after areas which significantly enhance the efficiency of internal training, increase productivity and improve company performance.

In order to increase company knowledge, achieve measurable results and stay ahead of their competitors, companies can also use other CompanyAcademy services: they can provide their employees with professional development through advanced Silver and Gold courses, and create content of the highest quality thanks to the state-of-the-art production and multimedia studio.

218% | increase in revenue

87% | more efficient professional development

24% | increase in profit margin

CompanyAcademy provides your company with:

- ◆ Efficient employee education
- ◆ Reduced training costs
- ◆ Increased income
- ◆ Facilitated and cost-effective training organization
- ◆ Top-quality professional development courses at favorable prices
- ◆ Creating internal courses according to company needs
- ◆ Training control and result evaluation
- ◆ Monitoring employee progress
- ◆ Personalized platforms and content
- ◆ Easily designed training plans for each employee
- ◆ Increased employee comfort
- ◆ Learning at home or from other locations
- ◆ Enhanced time management and increased productivity
- ◆ Efficient information exchange within the company – intranet and EduWall
- ◆ Organizing live streams and webinars
- ◆ Opportunity to obtain international certificates

"An individual approach, top-notch professors and a blend of art and IT at FCA are the winning combination for my career."

Katarina Vesin, Faculty of Contemporary Arts

STUDENTS' EXPERIENCES

"As a quality assurance director at Delhaize Serbia, I use and share with my colleagues the skills and knowledge I gained at BusinessAcademy on a daily basis."

Katarina Bošković, Cambridge Business Program at BusinessAcademy

savremena
OSNOVNA ŠKOLA

A school to love Primary School Savremena

Primary School Savremena is a Future Ready School, created on the foundations of Savremena Gimnazija. At Primary School Savremena, the students can attend National or Combined program and acquire international knowledge.

Primary School Savremena takes into consideration all aspects of the development of a child's personality and talents, supports affinity-based learning and personalized approach, helps the child develop memory, concentration and focus, strengthens reflective learning and encourages multidisciplinary lessons.

It has adopted Harvard's program for the development of multiple intelligences, which shapes each individual into being what he or she really is; with this approach and input from parents, who are constant partners in education and upbringing at Savremena, the child grows into an original, strong person, rather than blending into the prescribed societal patterns.

Combined program

National program

savremena
GIMNAZIJA

Truly different

Savremena Gimnazija is an accredited Cambridge school, where students attend lessons in Serbian and English, at one of two available programs: National or Combined.

The teaching unfolds in a modern environment – Intelligent Classrooms and Google Technology Classrooms, supported by state-of-the-art technology, such as tablets and laptops, interactive whiteboards, Google apps, Samsung Gear VR, e-diaries and many other high tech solutions.

Interdisciplinary approach to teaching, the high level of dedication invested by the teachers who are top experts and educators, along with creatively prepared, interactive lessons, ensure the easiest possible way for the students to acquire practical knowledge and skills, that will prepare them for continuing their education at universities all over the world.

Combined program

National program

International School

Truly different Cambridge International School

International School is an international primary and secondary school that provides strictly English-mediated lessons at the Cambridge International and IB Diploma Programs.

This futuristic, highly modern school which utilizes cutting-edge technologies in teaching, including 3D printers, 3D scanners, 3D pens and interactive tables and whiteboards provides a different approach to education, also characterized by a wealth of extracurricular activities.

International School employs young, exquisitely educated personnel that nurtures a mentoring approach to each individual student and provides creativity-driven learning experience along with a smooth path towards internationally recognized Cambridge diplomas (ICE and AICE) and IB diplomas – a ticket to the world's preeminent universities.

DesignStudio
by ITAcademy

Ideas. Creativity. Enthusiasm.

LINK DesignStudio is a unique project which establishes a link between our students and clients requiring design services.

This allows the students to gain hands-on practice, experience work in a real business environment, add references to their CVs, and find employment in the area of design.

On the other hand, DesignStudio offers small, medium-sized and large companies the opportunity to get top design solutions ranging from visual identity to website development, free of charge and as efficiently as possible. This is our way of contributing to the development of business and start-up projects in the region.

ProgrammingFactory
by ITAcademy

The "hometown" of top programmers

LINK ProgrammingFactory enables our students to gain work experience and become ideal candidates for programming positions at IT companies immediately after completing their education.

By working on real projects for different regional companies, with support from experienced experts, seniors in their respective fields, the students gain invaluable knowledge which serves as a gateway to the world of the most successful and best-paid programmers and developers.

PersonalDevelopment
PROGRAM

Soft skills package for your perfect career

As part of your comprehensive education program, you will receive, free of any extra charge, a special package of skills useful for any line of work and crucial for career success: the Personal Development Program (PDP).

The program encompasses 25 online courses and 2 months of practical training where you will develop a wide range of transversal skills; it constitutes an excellent way for you to build upon the knowledge and skills you have acquired through your education, helping you assume a superior position on the market.

SAVETNIK **za** **POMOĆ**
U UČENJU

The right advice that will make education easier for you

The Learning Assistance Counselor provides support to students who experience problems with learning, as well as those who wish to improve their learning strategies and organize their time as efficiently as possible.

Learning is not always simple. Over 80% of students experience problems with learning at least once over the course of their education, an obstacle which can lead to poorer grades, lower motivation, increased stress levels, lesson overload, and doubts regarding their academic choices. This is why all our students have access to the Learning Assistance Counselor.

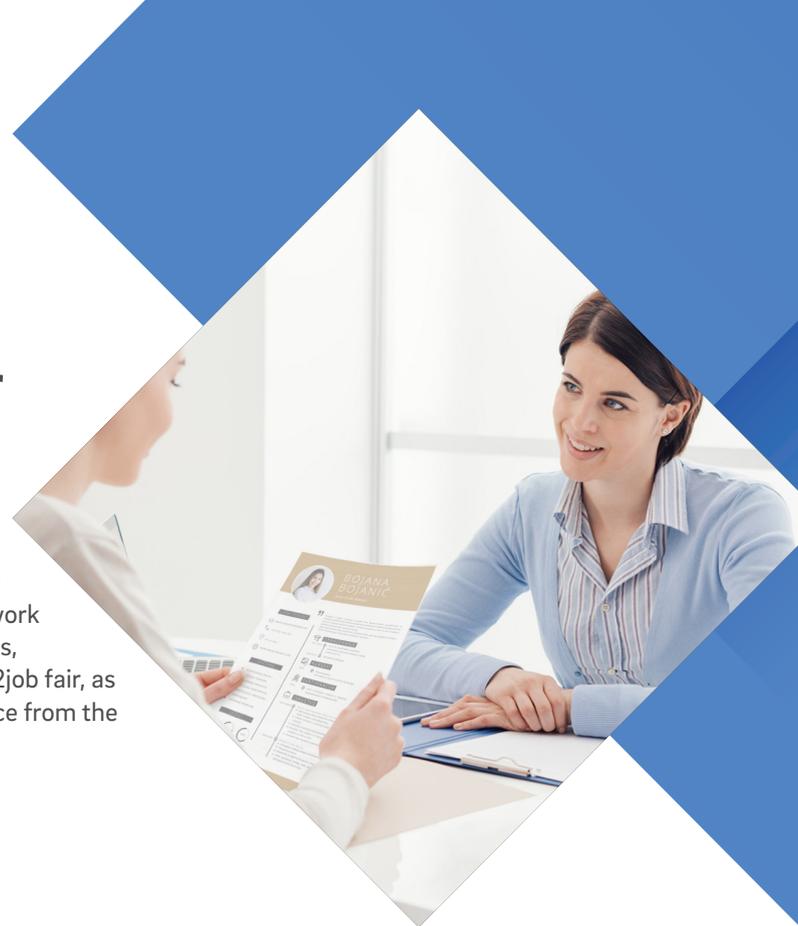

SAVETNIK **za** ***POMOĆ***
u karijeri

Comprehensive assistance for building a successful career

In addition to knowledge and skills, all our students receive comprehensive support for building a successful business career.

Comprehensive assistance for building a successful career recognized certificates and diplomas which facilitate employment, free educational seminars, an opportunity to work on real projects during and after training, a direct link to the leading regional employers, professional orientation and professional CVs, employment opportunities at the LINK2job fair, as well as lifelong professional development free of charge. Also, students can seek advice from the Career Assistance Counselor at any point.

Agency

The logo is centered within a white diamond shape. The word "link2job" is written in a bold, sans-serif font, with "link" in red and "2job" in black. Below it, the words "Recruitment", "and casting", and "Agency" are stacked in a smaller, black, sans-serif font.

The best link between candidates and employers

LINK2job employment and casting agency is driven by the mission of matching the right employers with the right talent. Aiming to provide ideal jobs for its members and reliable workforce en route to success for the companies, thanks to its numerous partnerships and extensive database, it is able to provide swift facilitation towards the fulfilment of both sides' needs.

Through training, courses, seminars, personal development programs and internships, the Center for Career Development provides multiple avenues for the candidates' self-advancement and career development, while HR consulting services help companies elevate their business to the top level.

Over twenty years of experience and constant development in the world of business allow us to find the best way to improve the business career of our clients. The agency's unique, custom-made employee program enables candidates to realize their full potential and find jobs that best suit their criteria, and provides employers with candidates tailored to the company's needs and requirements.

Center for Career Development

by LINKgroup

Become the employer's first choice

A completed education is your first and most important step. However, our goal is not to merely transfer skills to you, but to help you turn your newly-gained knowledge into profit.

The Center for Career Development (CCD) operates through helping students from our educational institutions to make quality career-related decisions, providing them with resources, special programs and individual counseling on career development, as well as with assistance regarding employment.

- ▶ Cooperation with more than 100 leading companies
- ▶ Seminars and workshops
- ▶ Career counseling and guidance
- ▶ Developing CVs

The logo for 'link2job Job Fair' is centered within a white diamond shape. The word 'link' is in a bold, red, lowercase sans-serif font. The '2' is a smaller, black, lowercase sans-serif font. The word 'job' is in a black, lowercase sans-serif font. Below 'link2job', the words 'Job Fair' are written in a smaller, black, uppercase sans-serif font.

link2job
Job Fair

LINK2job employment fair – your link to a successful career

Created as a socially responsible project, LINK2job was developed by the LINK2job Employment and Casting Agency which has considerable experience in mediating between employers and job seekers.

In addition to becoming the largest regional fair of its kind, the goal of LINK2job is to contribute, as efficiently as possible, to creating good bonds between fairgoers and companies, to the benefit of both sides. This is how we do our share in solving the burning issues: employment on the one hand, and a lack of quality employees on the other.

Institut za
moderno obrazovanje

Institute for
Contemporary Education

The logo for Link Examinations Institute is centered within a white diamond shape. The word "link" is in a bold, black, lowercase sans-serif font. A vertical line separates "link" from "Examinations", which is in a red, uppercase sans-serif font. Below "link" and "Examinations" is the word "Institute" in a black, lowercase sans-serif font.

link | Examinations
Institute

Internationally recognized certificates – a gateway to success.

LINK Examinations Institute is a specialized accreditation and certification institute which helps candidates obtain internationally recognized qualifications in IT, business, internet business and other related areas.

The institute enables students, employees and all natural persons to take international exams and acquire prestigious certificates that will help them in their academic and professional advancement in the country and abroad.

In a modern environment, professional and experienced employees, and qualified and accredited examiners, will help the candidates to quickly and efficiently acquire internationally recognized certificates, thus contributing to their professional development.

mala
MATURA

Free online preparation for the final exam

The Primary Finals project lets elementary school students prepare for their final exam free of charge, over the Internet, in a quite simple and interesting way.

Online Serbian language and mathematics courses, as well as the preparation for the elective subject, provide a number of skillfully designed interactive lessons and tests that help the students master all the topics required for success at the final exam and easy enrollment into the desired high school.

In order for elementary students to enjoy a more interesting learning process and have the right feedback during testing, they can access multimedia and video lessons with accompanying explanations and communicate with each individual teacher. Also, there are mini-tests for particular areas with unlimited access.

Mala-matura.com – mobile app that facilitates learning

The fact that the entire platform is available as a mobile app further facilitates the learning process. Simply download it and revise and learn whenever you like. The website also contains a section called Parents' Corner, which provides answers to numerous questions and offers many interesting pieces of advice, helping parents follow the preparation of their little graduates.

by LINKgroup
LINK*university*
Besplatno obrazovanje dostupno svima

Free education available to everyone

LINKuniversity is the portal where you can learn what you want, when you want, how you want, at your own pace.

And it's all free. All you need to do is choose the area that interests you the most:

- ◆ Programming
- ◆ Design

- ◆ Management
- ◆ E-business
- ◆ Modern business
- ◆ IT administration
- ◆ Audio and video
- ◆ English language

Link-eLearning.com

School without walls

LINK-eLearning offers you a large number of free online courses and lessons from various areas of knowledge and skills through an online distance learning service.

Website LINK-eLearning lets you adopt useful knowledge from a number of areas through a distance learning platform in an easy and interesting way. Online courses will help you get acquainted with marketing, programming, design and other fields in which you would like to strengthen your competence. You choose how long the courses last, as well as whether you will attend them on your own or with an instructor's support. With LINK-eLearning, all contemporary skills are within reach, wherever you are.

EDUKACIJA

All about education

The edukacija.rs portal was one of the first projects developed within the LINK Business Incubator; it was created in order to collect all relevant information about all levels and types of education in Serbia in one place.

Today it's the leading portal in this realm, with over 500,000 unique monthly visitors; in 2015, PC Press named it the best website in Serbia in knowledge base category.

In addition to the central educational info portal, education.rs includes 6 subdomains:

- ▶ Elementary schools portal – osnovneskole.edukacija.rs
- ▶ High schools portal – srednjeskole.edukacija.rs

Everything for your education in one place!

Guidance counseling, advice on starting elementary school, high school and higher education, legal assistance – everything that's needed for your education.

EDUcounselor's mission is to help young people take a step toward a successful future career. Whether you are starting higher education, elementary school or high school, EDUcounselor is there to facilitate the process.

This education service, courtesy of the edukacija.rs portal, provides guidance counseling and preparation for entrance exams and "primary finals", backed by the Institute for Contemporary Education, which brings together top experts in crucial areas of education.

The logo for IT=FEST is centered within a white diamond shape. The text "IT=FEST" is rendered in a bold, sans-serif font. The "IT" portion is red, followed by a black equals sign, and the "EST" portion is black. The diamond is set against a red background, which is partially overlaid by a black geometric shape on the right side.

IT=FEST

Design and programming festival

The IT FEST programming school is an IT festival aimed primarily at high school students, but also anyone interested in the latest IT trends.

The students have the opportunity to master, free of charge, the basics of programming, graphic and web design, learn how to create video games, and much more.

Master the art of programming.
Master the art of design.
Change the world for the better.

- ◆ Live Class Technology – Live stream – recording and broadcasting lectures, conferences and other events.

HOW TO FIND A JOB IN THE 21ST CENTURY

+ 444 Tips for a
Successful Career

How to Find a Job in the 21st Century

+ 444 Tips for a Successful Career

Written by Valentin Kuleto and Dragan Varagić, "How to Find a Job in the 21st Century + 444 Tips for a Successful Career" is a guide for a successful career of each individual.

The book provides answers to various questions regarding the career and existence of any person. It was written with the intention of helping people find the right profession for themselves, one that is thoroughly enjoyable and profitable.

Readers can learn how to think properly while looking for a job, but also how to build self-confidence. The book provides business and life advice that leads to a safe career and an easier and prosperous life.

Excuses mustn't create one's life – this is the main motto of the book. There is a solution to any problem – it is up to us to find one.

E-LEARNING

The future of education

E-learning

The future of education

In their comprehensive book “E-learning”, authors Dr. Valentin Kuleto and Dr. Velimir Dedić convey their immense experience in distance learning.

The book compares e-learning, free of time and space limitations, with the traditional approach to teaching, underlining the importance of modern technology in education and the need to alter current educational methods.

“E-learning” presents various learning methods, models and techniques, particularly focusing on the development of distance learning from its creation up to now. This book provides you with a full “experience” of online learning and enables you to see all its advantages: flexibility, interaction, and the quality of the knowledge gained.

How to Achieve Excellent
Results with Less Effort in
Less Time.

"Study Guide"

How to Achieve Excellent Results with Less Effort in Less Time.

"Study Guide", published by LINKgroup, is a handbook designed to help you facilitate and shorten your learning process, develop your own learning style, and achieve excellent results.

"Study Guide" provides answers to questions such as:

- ◆ How to achieve and maintain your maximum mental and physical learning form?
- ◆ How to organize and save time, and develop useful habits?
- ◆ How to increase focus?
- ◆ How to organize your working environment?
- ◆ How to best prepare yourself for different tests?
- ◆ How to spot keywords in a lesson?
- ◆ How to master speed reading?
- ◆ How to fight forgetfulness?
